

Location Return User Interfaces

SAR

When a search team member conducts a Registry search, a notification is sent to the search subject's phone

If the Lost Subject Phone is within cellular service, it will receive a notification.

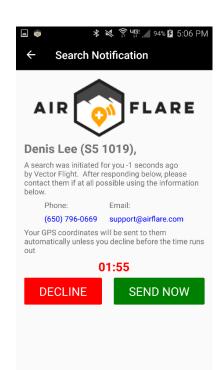

Search Subject

If the Lost Subject does not acknowledge the notification within 20 seconds, the phone's GPS coordinates are pushed back to the Search Team.

Once acknowledged, the Lost Subject is provided 2 minutes to send or decline sending GPS coordinates to the Search Team

- If sent, the Search Team receives
 GPS coordinates via Field Console
- If declined, the Search Team is informed the Lost Subject acknowledged the notification, but declined sending coordinates

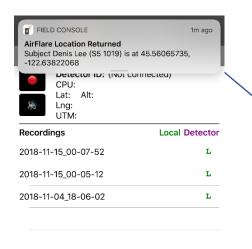

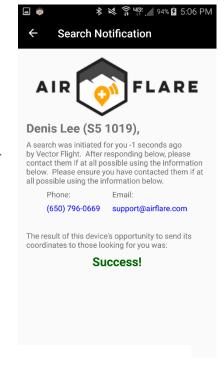

Search Subject

The Lost Subject receives notice whether GPS coordinates were successfully delivered to the Search Team

SAR

Results of Location Return are pushed back to the SAR Team Member who initiated the Registry Search

SAR

Location Return results are viewed in Field Console and are available to all members of the Search Team.

Search Details provide additional functionality and information

GPS coordinates can be navigated from a GPS or mapping app from the SAR member's phone, or from a handheld GPS device.
